

**Hsu et al.****Serial No.: 09/421,108****Amendments to the Claims:**

Claims 1-194 (Canceled).

✓ Claim 195 (Currently Amended): A method for enabling a plurality of gift givers to each make a respective commitment for a monetary contribution of any giver-desired amount toward a gift for a gift recipient, the method comprising:

receiving at a centralized gift registry computer system gift ideas supplied by the gift recipient;

storing the gift ideas in a memory which is part of, or accessible to, said gift registry computer system;

providing to the gift givers, based on the stored gift ideas and in response to requests supplied to said gift registry computer, an on-line display of the gift ideas;

receiving at said gift registry computer system commitments from the gift givers for monetary contributions toward <sup>specified by the gift givers as amount of currency</sup> ~~a~~ the purchase price of a gift selected from the on-line display of gift ideas;

combining the commitments for monetary contributions and updating the display of the gift ideas to reflect an uncommitted balance of ~~the current commitments toward~~ the selected gift's purchase price gift; ~~in gift~~

automatically generating a purchase request for the selected gift if the total of the commitments is equal to or greater than the selected gift's a purchase price ~~of the gift;~~ and

attempting to satisfy the purchase request,

wherein the commitment of each giver that commits to make a monetary contribution is for any giver-desired portion of the uncommitted balance of the selected gift's purchase price.

✓ Claim 196 (Currently Amended): The method according to claim 195, wherein the commitment of each giver that commits to make a monetary contribution is directly specified by the gift giver as an amount of currency money.

**Hsu et al.****Serial No.: 09/421,108**

✓ Claim 197 (Previously Presented): The method according to claim 195, wherein the providing of an on-line display of the gift ideas comprises:

generating one or more web pages based on the gift ideas supplied by the gift recipient; and

supplying the generated web pages to the gift givers in response to giver-supplied requests.

✓ Claim 198 (Previously Presented): The method according to claim 195, wherein attempting to satisfy the purchase request comprises:

sending the purchase request to a supplier.

✓ Claim 199 (Currently Amended): A method for enabling a plurality of gift givers to each make a respective commitment for a monetary contribution of any giver-desired amount toward a gift for a gift recipient, the method comprising:

receiving at a centralized gift registry computer system gift ideas supplied by the gift recipient;

storing the gift ideas in a memory which is part of, or accessible to, said gift registry computer system;

providing to the gift givers, based on the stored gift ideas and in response to requests supplied to said gift registry computer, an on-line display of the gift ideas;

receiving at said gift registry computer system commitments from the gift givers for monetary contributions toward a the purchase price of a gift selected from the on-line display of gift ideas;

combining the commitments for monetary contributions and updating the display of the gift ideas to reflect the uncommitted balance of current commitments toward the selected gift's purchase price gift;

automatically generating a purchase request for the selected gift if the total of the commitments is equal to or greater than the selected gift's a purchase price of the gift;  
and

**Hsu et al.**

**Serial No.: 09/421,108**

attempting to satisfy the purchase request,  
wherein the commitment of each giver that commits to make a monetary contribution is for any giver-desired portion of the uncommitted balance of the selected gift's purchase price, and

wherein attempting to satisfy the purchase request comprises:  
sending an offer to purchase the selected gift to a plurality of vendors;  
receiving an acceptance of the offer from one of the vendors; and  
requesting that the accepting vendor send the selected gift to the gift recipient.

Claim 200 (Currently Amended): A method for enabling a plurality of gift givers to each make a respective commitment for a monetary contribution of any giver-desired amount toward a gift for a gift recipient, the method comprising:

receiving at a centralized gift registry computer system gift ideas supplied by the gift recipient;

storing the gift ideas in a memory which is part of, or accessible to, said gift registry computer system;

providing to the gift givers, based on the stored gift ideas and in response to requests supplied to said gift registry computer, an on-line display of the gift ideas;

receiving at said gift registry computer system commitments from the gift givers for monetary contributions toward a the purchase price of a gift selected from the on-line display of gift ideas;

combining the commitments for monetary contributions and updating the display of the gift ideas to reflect the uncommitted balance of current commitments toward the selected gift's purchase price gift;

automatically generating a purchase request for the selected gift if the total of the commitments is equal to or greater than the selected gift's a purchase price of the gift;  
and

attempting to satisfy the purchase request,

**Hsu et al.**

**Serial No.: 09/421,108**

wherein the commitment of each giver that commits to make a monetary contribution is for any giver-desired portion of the uncommitted balance of the selected gift's purchase price, and

wherein attempting to satisfy the purchase request comprises:

adding the purchase request for the selected gift to a gift list of gifts to be purchased;

aggregating purchase requests for identical gifts into a single purchase order;

sending an offer to purchase the gifts in the purchase order to a plurality of vendors;

receiving an acceptance of the offer from one of the vendors; and

requesting that the accepting vendor send the gifts in the purchase order to the appropriate gift recipients.

Claim 201 (Previously Presented): The method according to claim 195, wherein the receiving of commitments from the gift givers comprises:

receiving credit card information supplied by the gift givers that make commitments.

Claim 202 (Currently Amended): The method according to claim 195, wherein the receiving of commitments from the gift givers comprises:

receiving commitments from the gift givers that include commitments which are contingent upon other gift givers making commitments such that the total of all commitments is equal to or greater than the ~~price of the~~ selected gift's purchase price ~~gift~~.

Claim 203 (Currently Amended): The method according to claim 195, wherein the receiving of gift ideas from a gift recipient comprises receiving at least one gift idea ideas that specifies ~~specify~~ a substitute gift ~~substitution option~~.

Claim 204 (Currently Amended): The method according to claim 195, further comprising:

**Hsu et al.****Serial No.: 09/421,108**

providing the commitments for monetary contributions to the gift recipient as cash if the total of the commitments is less than the selected gift's purchase price.

Claim 205 (Currently Amended): The method according to claim 195, wherein one or more of the gift ideas specified by the gift recipient is associated with a recipient-determined purchase price for the gift idea.

Claim 206 (Previously Presented): The method according to claim 195, wherein one or more of the gift ideas specified by the gift recipient is associated with a recipient-determined vendor for the gift idea.

Claim 207 (Currently Amended): A computer-readable medium having computer-executable instructions for performing a method for enabling a plurality of gift givers to each make a respective commitment for a monetary contribution of any giver-desired amount toward a gift for a gift recipient, the method comprising:

receiving at a centralized gift registry computer system gift ideas supplied by the gift recipient;

storing the gift ideas in a memory which is part of, or accessible to, said gift registry computer system;

providing to the gift givers, based on the stored gift ideas and in response to requests supplied to said gift registry computer, an on-line display of the gift ideas;

receiving at said gift registry computer system commitments from the gift givers for monetary contributions toward a the purchase price of a gift selected from the on-line display of gift ideas;

combining the commitments for monetary contributions and updating the display of the gift ideas to reflect the uncommitted balance of current commitments toward the selected gift's purchase price gift;

automatically generating a purchase request for the selected gift if the total of the commitments is equal to or greater than the selected gift's a purchase price of the gift;  
and

**Hsu et al.**  
**Serial No.: 09/421,108**

attempting to satisfy the purchase request,  
wherein the commitment of each giver that commits to make a monetary contribution is for any giver-desired portion of the uncommitted balance of the selected gift's purchase price.

Claim 208 (Currently Amended): A centralized gift registry computer system programmed to perform a method for enabling a plurality of gift givers to each make a respective commitment for a monetary contribution of any giver-desired amount toward a gift for a gift recipient, the method comprising:

receiving at said centralized gift registry computer system gift ideas supplied by the gift recipient;

storing the gift ideas in a memory which is part of, or accessible to, said gift registry computer system;

providing to the gift givers, based on the stored gift ideas and in response to requests supplied to said gift registry computer, an on-line display of the gift ideas;

receiving at said gift registry computer system commitments from the gift givers for monetary contributions toward a the purchase price of a gift selected from the on-line display of gift ideas;

combining the commitments for monetary contributions and updating the display of the gift ideas to reflect the uncommitted balance of ~~current commitments toward~~ the selected gift's purchase price gift;

automatically generating a purchase request for the selected gift if the total of the commitments is equal to or greater than the selected gift's a purchase price ~~of the gift~~;  
and

attempting to satisfy the purchase request,  
wherein the commitment of each giver that commits to make a monetary contribution is for any giver-desired portion of the uncommitted balance of the selected gift's purchase price.

**Hsu et al.**

**Serial No.: 09/421,108**

Claim 209 (Currently Amended): A gift registry computer system configured to enable a plurality of gift givers to each make a respective monetary contribution of any giver-desired amount toward a gift for a gift recipient, the computer system comprising:

a communications circuit for connecting to a communications network;

a processor; and

a memory containing instructions executable by said processor to perform the steps of:

receiving gift ideas supplied by the gift recipient via said communications network;

storing the gift ideas in said memory or in another memory accessible to said gift registry computer system;

providing to the gift givers, based on the stored gift ideas and in response to requests supplied via said communications network, an on-line display of the gift ideas;

receiving, via said communications network, commitments from the gift givers for monetary contributions toward a the purchase price of a gift selected from the display of gift ideas;

combining the commitments for monetary contributions and updating the display of the gift ideas to reflect the uncommitted balance of ~~current commitments~~ toward the selected gift's purchase price gift;

automatically generating a purchase request for the selected gift if the total of the commitments is equal to or greater than the selected gift's a purchase price ~~of the gift~~; and

attempting to satisfy the purchase request,

wherein the commitment of each giver that commits to make a monetary contribution is for any giver-desired portion of the uncommitted balance of the selected gift's purchase price.

Claim 210 (Previously Presented): The gift registry computer system according to claim 209, wherein the communications network is the Internet.

**Hsu et al.**

**Serial No.: 09/421,108**

Claim 211 (Currently Amended): The gift registry computer system according to claim 209, wherein the commitment of each giver that commits to make a monetary contribution is directly specified by the gift giver as an amount of currency money.

Claim 212 (Currently Amended): A method for enabling a plurality of gift givers to each contribute part of a total gift amount specified for a gift for a gift recipient, the method comprising:

receiving at a centralized gift registry computer system gift ideas supplied by the gift recipient, at least one of the received gift ideas specifying a substitute gift;

storing the gift ideas in a memory which is part of, or accessible to, the gift registry computer system;

providing to the gift givers, based on the stored gift ideas and in response to requests supplied to the gift registry computer system, an on-line display of the gift ideas;

receiving at the gift registry computer system commitments from the gift givers for parts ~~part~~ of the total gift amount specified for a gift selected from the on-line display of gift ideas;

combining the commitments from the gift givers and updating the display of the gift ideas to reflect the uncommitted balance of current commitments toward the total gift amount specified for the selected gift; and

automatically generating a purchase request for the selected gift if the total of the commitments is equal to or greater than the total gift amount specified for the gift,

wherein the commitment of each giver for part of the total gift amount is directly specified by the gift giver as an amount of currency.

Claim 213 (Previously Presented): The method according to claim 212, wherein the providing of an on-line display of gift ideas comprises:

generating one or more web pages based on the gift ideas supplied by the gift recipient; and

**Hsu et al.**

**Serial No.: 09/421,108**

supplying the generated web pages to the gift givers in response to giver-supplied requests.

Claim 214 (Previously Presented): The method according to claim 212, wherein the receiving of commitments from the gift givers comprises:

receiving commitments from the gift givers that include commitments which are contingent upon other gift givers making commitments such that the total of all commitments is equal to or greater than the total gift amount specified for the selected gift.

Claim 215 (Canceled).

Claim 216 (Previously Presented): The method according to claim 212, further comprising:

providing the commitments from the gift givers to the gift recipient as cash if the total of the commitments is less than the total gift amount specified for the selected gift.

Claim 217 (Previously Presented): The method according to claim 212, wherein the gift recipient specifies total gift amounts for the gift ideas.

Claim 218 (Currently Amended): A storage medium having processor-executable instructions for performing a the method of claim 212 for enabling a plurality of gift givers to each contribute part of a total gift amount specified for a gift for a gift recipient, the method comprising:

receiving at a centralized gift registry computer system gift ideas supplied by the gift recipient, at least one of the received gift ideas specifying a substitute gift;

storing the gift ideas in a memory which is part of, or accessible to, the gift registry computer system;

providing to the gift givers, based on the stored gift ideas and in response to requests supplied to the gift registry computer system, an on-line display of the gift ideas;

*Hsu et al.*

Serial No.: 09/421,108

receiving at the gift registry computer system commitments from the gift givers for parts of the total gift amount specified for a gift selected from the on-line display of gift ideas;

combining the commitments from the gift givers and updating the display of the gift ideas to reflect the uncommitted balance of the total gift amount specified for the selected gift; and

automatically generating a purchase request for the selected gift if the total of the commitments is equal to or greater than the total gift amount specified for the gift,

wherein the commitment of each giver for part of the total gift amount is directly specified by the gift giver as an amount of currency.

Claim 219 (Previously Presented): A computer system programmed to perform a the method of claim 212 for enabling a plurality of gift givers to each contribute part of a total gift amount specified for a gift for a gift recipient, the method comprising:

receiving at a centralized gift registry computer system gift ideas supplied by the gift recipient, at least one of the received gift ideas specifying a substitute gift;

storing the gift ideas in a memory which is part of, or accessible to, the gift registry computer system;

providing to the gift givers, based on the stored gift ideas and in response to requests supplied to the gift registry computer system, an on-line display of the gift ideas;

receiving at the gift registry computer system commitments from the gift givers for parts of the total gift amount specified for a gift selected from the on-line display of gift ideas;

combining the commitments from the gift givers and updating the display of the gift ideas to reflect the uncommitted balance of the total gift amount specified for the selected gift; and

automatically generating a purchase request for the selected gift if the total of the commitments is equal to or greater than the total gift amount specified for the gift,

wherein the commitment of each giver for part of the total gift amount is directly specified by the gift giver as an amount of currency.

**Hsu et al.**

**Serial No.: 09/421,108**

**Claim 220 (Currently Amended):** A method for enabling a plurality of gift givers to each contribute part of a total gift amount specified for a gift for a gift recipient, the method comprising:

receiving at a centralized gift registry computer system gift ideas supplied by the gift recipient, wherein each gift idea has a specified total gift amount;

storing the gift ideas and total gift amounts in a storage medium which is part of, or accessible to, the gift registry computer system;

providing to the gift givers, based on the stored gift ideas and total gift amounts and in response to requests supplied to the gift registry computer system, an on-line display of the gift ideas and the total gift amounts;

receiving at the gift registry computer system commitments from the gift givers for ~~parts part~~ of the total gift amount specified for a gift selected from the on-line display of gift ideas;

combining the commitments from the gift givers and updating the display of the gift ideas to reflect the uncommitted balance of current commitments toward the total gift amount specified for the selected gift; and

automatically generating a purchase request for the selected gift if the total of the commitments is equal to or greater than the total gift amount specified for the selected gift,

wherein each giver is able to commit for part of the total gift amount specified for ~~the a~~ selected gift even if ~~the only the total gift amount for the selected gift is specified by~~ the gift idea for the selected gift is the total gift amount.

**Claim 221 (Previously Presented):** The method according to claim 220, wherein the providing of an on-line display of gift ideas comprises:

generating one or more web pages based on the gift ideas supplied by the gift recipient; and

supplying the generated web pages to the gift givers in response to giver-supplied requests.

**Hsu et al.****Serial No.: 09/421,108**

Claim 222 (Previously Presented): The method according to claim 220, wherein the receiving of commitments from the gift givers comprises:

receiving commitments from the gift givers that include commitments which are contingent upon other gift givers making commitments such that the total of all commitments is equal to or greater than the total gift amount specified for the selected gift.

Claim 223 (Currently Amended): The method according to claim 220, wherein the receiving of gift ideas from a gift recipient comprises receiving at least one gift idea ideas that specifies a substitute gift ~~specify substitution options for the gift ideas.~~

Claim 224 (Previously Presented): The method according to claim 220, further comprising:

providing the commitments from the gift givers to the gift recipient as cash if the total of the commitments is less than the total gift amount specified for the selected gift.

Claim 225 (Previously Presented): The method according to claim 220, wherein the gift recipient specifies total gift amounts for the gift ideas.

Claim 226 (Currently Amended): A storage medium having processor-executable instructions for performing a the method of claim 220 for enabling a plurality of gift givers to each contribute part of a total gift amount specified for a gift for a gift recipient, the method comprising:

receiving at a centralized gift registry computer system gift ideas supplied by the gift recipient, wherein each gift idea has a specified total gift amount;

storing the gift ideas and total gift amounts in a storage medium which is part of, or accessible to, the gift registry computer system;

**Hsu et al.**

**Serial No.: 09/421,108**

providing to the gift givers, based on the stored gift ideas and total gift amounts and in response to requests supplied to the gift registry computer system, an on-line display of the gift ideas and the total gift amounts;

receiving at the gift registry computer system commitments from the gift givers for parts of the total gift amount specified for a gift selected from the on-line display of gift ideas;

combining the commitments from the gift givers and updating the display of the gift ideas to reflect the uncommitted balance of the total gift amount specified for the selected gift; and

automatically generating a purchase request for the selected gift if the total of the commitments is equal to or greater than the total gift amount specified for the selected gift.

wherein each giver is able to commit for part of the total gift amount specified for the selected gift even if the only gift amount specified by the gift idea for the selected gift is the total gift amount.

Claim 227 (Previously Presented): A computer programmed to perform a the method of claim 220 for enabling a plurality of gift givers to each contribute part of a total gift amount specified for a gift for a gift recipient, the method comprising:

receiving at a centralized gift registry computer system gift ideas supplied by the gift recipient, wherein each gift idea has a specified total gift amount;

storing the gift ideas and total gift amounts in a storage medium which is part of or accessible to, the gift registry computer system;

providing to the gift givers, based on the stored gift ideas and total gift amounts and in response to requests supplied to the gift registry computer system, an on-line display of the gift ideas and the total gift amounts;

receiving at the gift registry computer system commitments from the gift givers for parts of the total gift amount specified for a gift selected from the on-line display of gift ideas;

**Hsu et al.**

**Serial No.: 09/421,108**

combining the commitments from the gift givers and updating the display of the gift ideas to reflect the uncommitted balance of the total gift amount specified for the selected gift; and

automatically generating a purchase request for the selected gift if the total of the commitments is equal to or greater than the total gift amount specified for the selected gift.

wherein each giver is able to commit for part of the total gift amount specified for the selected gift even if the only gift amount specified by the gift idea for the selected gift is the total gift amount.

11  
E  
Claim 228 (Currently Amended): A gift registry computer system configured to enable a plurality of gift givers to each contribute part of a total gift amount specified for a gift for a gift recipient, the computer system comprising:

a communication circuit for connecting to a communications network;

a processor; and

a storage medium containing instructions executable by the processor to perform the steps of:

receiving gift ideas supplied by the gift recipient, at least one of the received gift ideas specifying a substitute gift;

storing the gift ideas in a storage medium which is accessible to the processor;

providing to the gift givers, based on the stored gift ideas and in response to requests supplied over the communications network, an on-line display of the gift ideas;

receiving commitments from the gift givers for ~~parts~~ part of the total gift amount specified for a gift selected from the on-line display of gift ideas;

combining the commitments from the gift givers and updating the display of the gift ideas to reflect the uncommitted balance of ~~current commitments toward~~ the total gift amount specified for the selected gift; and

**Hsu et al.**

**Serial No.: 09/421,108**

automatically generating a purchase request for the selected gift if the total of the commitments is equal to or greater than the total gift amount specified for the gift, wherein the commitment of each giver for part of the total gift amount is directly specified by the gift giver as an amount of currency.

Claim 229 (Previously Presented): The gift registry computer system according to claim 228, wherein the providing of an on-line display of gift ideas comprises:

generating one or more web pages based on the gift ideas supplied by the gift recipient; and

supplying the generated web pages to the gift givers in response to giver-supplied requests.

Claim 230 (Previously Presented): The gift registry computer system according to claim 228, wherein the receiving of commitments from the gift givers comprises:

receiving commitments from the gift givers that include commitments which are contingent upon other gift givers making commitments such that the total of all commitments is equal to or greater than the total gift amount specified for the selected gift.

Claim 231 (Canceled).

Claim 232 (Previously Presented): The gift registry computer system according to claim 228, further comprising:

providing the commitments from the gift givers to the gift recipient as cash if the total of the commitments is less than the total gift amount specified for the selected gift.

Claim 233 (Previously Presented): The gift registry computer according to claim 228, wherein the gift recipient specifies total gift amounts for the gift ideas.

**Hsu et al.**

**Serial No.: 09/421,108**

Claim 234 (Currently Amended): A gift registry computer system configured to enable a plurality of gift givers to each contribute part of a total gift amount specified for a gift for a gift recipient, the computer system comprising:

a communication circuit for connecting to a communications network;

a processor; and

a storage medium containing instructions executable by the processor to perform the steps of:

receiving gift ideas supplied by the gift recipient, wherein each gift idea has a specified total gift amount;

storing the gift ideas and total gift amounts in a storage medium which is accessible to the processor;

providing to the gift givers, based on the stored gift ideas and total gift amounts and in response to requests supplied over the communications network, an on-line display of the gift ideas and the total gift amounts;

receiving commitments from the gift givers for parts part of the total gift amount specified for a gift selected from the on-line display of gift ideas;

combining the commitments from the gift givers and updating the display of the gift ideas to reflect the uncommitted balance of current commitments toward the total gift amount specified for the selected gift; and

automatically generating a purchase request for the selected gift if the total of the commitments is equal to or greater than the total gift amount specified for the selected gift,

— wherein each giver is able to commit for part of the total gift amount specified for a selected gift even if the only the total gift amount for the selected gift is specified by the gift idea for the selected gift is the total gift amount.

Claim 235 (Previously Presented): The gift registry computer system according to claim 234, wherein the providing of an on-line display of gift ideas comprises:

generating one or more web pages based on the gift ideas supplied by the gift recipient; and

**Hsu et al.****Serial No.: 09/421,108**

supplying the generated web pages to the gift givers in response to giver-supplied requests.

Claim 236 (Previously Presented): The gift registry computer system according to claim 234, wherein the receiving of commitments from the gift givers comprises:

receiving commitments from the gift givers that include commitments which are contingent upon other gift givers making commitments such that the total of all commitments is equal to or greater than the total gift amount specified for the selected gift.

Claim 237 (Currently Amended): The gift registry computer system according to claim 234, wherein

the receiving of gift ideas from a gift recipient comprises receiving at least one gift idea ideas that specifies a substitute gift ~~specify substitution options for the gift ideas.~~

Claim 238 (Previously Presented): The gift registry computer system according to claim 234, further comprising:

providing the commitments from the gift givers to the gift recipient as cash if the total of the commitments is less than the total gift amount specified for the selected gift.

Claim 239 (Previously Presented): The gift registry computer system according to claim 234, wherein the gift recipient specifies total gift amounts for the gift ideas.
